Purchasing Offices in
India - Turkey - China - Brazil

www.msisstone.com
Overview

Founded in 1975, M S International, Inc. is the leading distributor of natural stone in North America. Headquartered in Orange, California, MSI also maintains state-of-the-art distribution centers in New Jersey, Georgia, Texas, Illinois, Massachusetts, and Arizona. Our product line includes granite, slate, marble, travertine, sandstone, limestone, quartzite, adoquin and other natural stone products imported from 30 countries. We also maintain overseas purchasing offices in India, Turkey, Brazil and China.

MSI’s mission statement is clear: provide our customers with the highest quality and broadest selection of natural stone products. With over 800,000 square feet of covered warehouse space, MSI has the greatest depth of natural stone inventory in North America. We maintain over 1,200 sku’s covering approximately 400 colors of natural stone. In addition, with over 350 employees to serve you, we can provide you with top quality service at competitive prices.

MSI’s product line covers the entire spectrum of natural stone for virtually every application including:

- Flooring
- Countertops
- Vanity Tops
- Landscaping
- Siding
- Fireplaces
- Bathrooms
- Tabletops
- Monuments

In addition to our Travertine and Limestone brochure, MSI has the following literature covering our entire product line:

- Main Brochure
- Slab Brochure
- Motif Brochure
- Landscape Brochure

Our website (www.msistone.com) contains the latest on our entire product line including pictures, room scenes, and other useful data.

---

Buyer/Owner must determine slip resistance suitability and maintainability for any of the material use. Natural Stones are products of nature; we cannot be held liable in any cause of action resulting from their use in any form. M S International, Inc. makes no expressed or implied warranty of merchandisability or fitness for any particular purpose. Natural stone products inherently lack uniformity and are subject to variation in aesthetics, color, shade, finish, tint, hardness, strength, slip resistance, density, etc. Natural stone may be characterized by dry seams, pits, fossils. In polished and honed stones, these areas are often filled at the factory. In rustic or tumbled stones as well as with some honed limstones, these are often filled with grout during installation. In these instances, it may be necessary to refill these voids as part of a normal maintenance procedure. Any samples submitted are with the understanding that these qualities are inherent in the nature of the product and are not to be considered latent defects.
